

New Generation Modular Sofa Systems

FEYDOM®

“**What if** we tried something different for a change?”

FEYDOM® presented by:
comficasa

A close-up photograph of a hand operating a sewing machine. The hand is positioned on the left side of the frame, with fingers gripping the fabric. The sewing machine's needle and foot are visible on the right side, stitching the fabric. The background is dark and out of focus. The text "Why FEYDOM?" is overlaid in white, bold, sans-serif font in the center of the image.

Why FEYDOM?

In 2004, two creatives had a plan to change the furniture industry, equipped with a “Good Idea” for designing **transformable furniture**...

By now, this **“Good Idea”** has resulted in a fast-growing open platform encompassing **12 countries worldwide**, in which creative and inventive people can open innovative businesses in any segment of the industry, including design, manufacturing, distribution, and marketing – inspiring innovation in the homes of anyone who recognizes them.

It’s a partnership based on **open allocation of resources, total corporate transparency, and individual accountability** in every segment of the organization.

Everyone is welcome.

Worldwide Recognition

Up to 5 year guarantee
Quality is guaranteed.

Something we know:
The status quo isn't sustainable.

Something we don't know:
The limit to creativity.

Life is getting faster and the concept of “home” is shifting.

So, what could be done? We focused on the massive, costly, and space-absorbing couch in the center of our room, shaping the living space.

**“What if we tried something Versatile?
Transformable? Inspiring?”**

We designed **Feydom sofa systems** as a solution, turning our living room into a **creative playground**.

This sparked our new business model: an **open platform** for design, manufacturing, distribution, and everything in between.

This is Feydom.

THE CLOODS
COLLECTION

Modularity means...

Sofa sets that seat the **exact** number of people you need them to.

Add, remove, and connect the elements till you create your ideal combination.

This way, each sofa set can fit a large range of room sizes, **from small student rooms to large lounges.**

DIAGON

Transformability means...

...one room doesn't have to mean one purpose.

Allow your living room to function as **a guest room, office, children's playroom, and even a bedroom** by simply rearranging the elements to suit your changing needs.

THE MATACAO 2
COLLECTION

Customizability means...

...becoming your own designer!

Explore your creativity by **combining sofa elements** from our collections. Then, **pick a color** for the entire set or **choose an accent element**.

Durability means...

Crafting **timeless** sofas designed to withstand change and transformations **for generations**. Changing your space doesn't have to mean changing your sofa.

CASCAIS

Sustainability means...

...not taking more from nature than we can give back.

Our focus:

Systematic transformation: Continually integrating new sustainable practices and materials into the production process.

Feydom Forest: Planted 30,000 trees on 50 hectares of land. Our preliminary goal is to reach 100 hectares.

Renewable energy: To cut CO2 emissions, we have installed photovoltaic panels on our factory roofs, generating more electricity than we consume in production.

Upcycling projects: Established a production line that utilizes leftover materials to minimize production waste.

Removable Covers: Washing, cleaning, and color changes are made easy without the need for reupholstering.

Features

1. No tools are needed for assembly. Simply unpack all the elements to set up the sofa system within minutes.

2. Two different leg heights and shades are available for added customization. (Cloods, Diagon, Cascais)

3. Removable, washable, and exchangeable covers offer a convenient way to maintain cleanliness and change the sofa's appearance.

Velcro Connector

Don't worry about the elements moving – Clooods, Diagon, and the Matacao 2 sets have **velcro connectors** that keep them together.

For Clooods, place the velcro connector under the seater cushion, where two seater bases meet.

For Diagon and Matacao 2, place the velcro connector underneath the seaters, where two elements meet.

They'll **stay in place** until you're ready to mix things up!

Metal Connector

Cascais has **metal connectors**.

To secure two seater elements together, use the metal connector included with the set by placing it underneath the seaters, where two elements meet.

Feel free to rearrange the set anytime – **the connections work in any position** and the elements won't move until you want them to.

Cushion PB+CB
(PPB)

Vertical Transformations

1 – 2. **Adjust the height** of the seats by adding or removing supports.

Add backrests, arm-rests, and cushions to the supports to **create various seating configurations**.

3. For added support and comfort, **attach a headrest** to any or all of the existing cushions, using the built-in zipper.

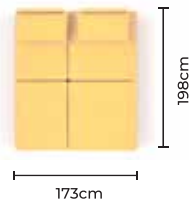

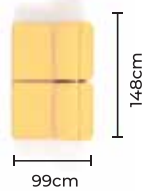

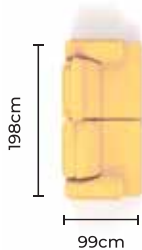

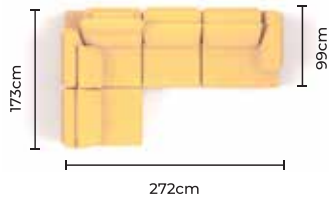

Completely transform your seating by **combining** seater elements, **connecting** supports, and **adding** backrests, armrests, and cushions to the base seaters, turning them from ottomans into a comfy and spacious sofa.

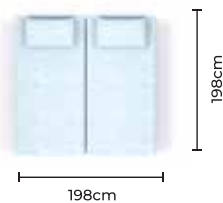

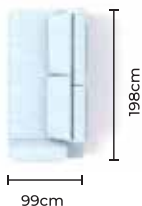

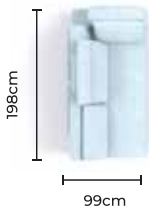

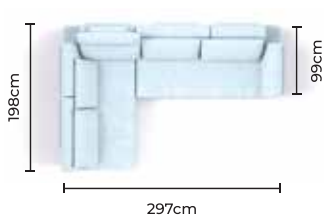

Illustrated on the left are two Square Elements “K” becoming a three-seater sofa.

**INNOVATIVE
INTERIOR**
selection

This corner sofa may appear classic, but its **unique form** provides exciting possibilities.

How?
The unconventional shape of the seaters **open three sides of the sofa** to the entire room, creating a positive and inviting space.

Plus, the elements connect to create an **extended corner sofa** or even a bed.

Design Award

NOMINEE 2013

All it needs is just
a quick transformation.

Bonbon

...is a dynamic shape-shifter.

A' DESIGN AWARD
WINNER 2013

One minute it's a corner sofa, the next it's a queen-sized bed.

The Bonbon seater glides from one position to the next – all thanks to a pair of wheels.

Double function is Bonbon's thing – the ottoman doubles as a backrest and the armrest has storage space.

To create a Bonbon set...

...choose your elements.

(And double them, or even triple them! It's up to you.)

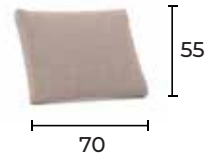

Bed / Seater

Ottoman / Backrest

Storage / Armrest

Cushion

Bonbon Features

1. The ottoman has a dual use, transforming to also function as a backrest.

2. A pair of wheels is included on each Bonbon seater for easy transformation. These wheels can be locked in place as needed.

3. The armrest features storage space large enough to fit an entire Bonbon cushion.

Accessories . . .

PEBBLE

The thrill that fuels you to be game!

Pebble Chair is a bean bag composed of four elements – the iron frame, the bean bag, the support cushion and the back support cushion.

Removable covers:

The Pebble Chair is only available in Mollia material. It has completely removable covers that are washable and replaceable to enhance your interior. The middle part of the Pebble Chair is always in a dark color (FF-12).

FEYDOM *com*ficasa

Accessories . . .

PAKS

PAKS is an ottoman with space for pets. It is in 2 sizes and is made from pieces of fabric and wood left over from manufacturing other products, so each piece is unique and environmentally friendly. You can also use it as a small seat or an ottoman.

Since each PAKS is made of mixed materials, you can only choose it in warm or cool colors.

Your PAKS always remains a unique product with which we ensure that we leave no footprint on the environment. Due to the way it is manufactured, it only has fixed covers.
