1. Fabric is covered with a special protective coating, forming a **water repellent** layer which prevents rapid fluid seepage. The liquid condenses on the surface of the material, preventing the fluid from being absorbed immediately by the fabric. This allows quick cleaning of the spilled liquid with a soft cloth or paper towel.
2. Pilling is a natural occurrence and cannot be fully overcome.
3. Pulled threads are to be expected if fabric is caught on sharp objects.

1. FEYDOM does not accept responsibility for any damage resulting from inappropriate material use or cleaning.
2. Test results were gathered from various samples and therefore represent an averaging process.
3. Slight variations in color shades are possible and unavoidable due to the fabric manufacturing process.
4. Our products satisfy the European Chemicals Directive (EG) no.1907/2006 (REACH) appendix XVII.

Cleaning Instruction:

What can be used:

- Soft brush or vacuum with soft-brush attachment,
- Natural soap or any dishwashing liquid,
- Slightly wet clean towel or natural sponge (avoid colored towels/sponges),
- Lukewarm water,
- Moist napkins or baby wipes.

What must not be used:

- NEVER use nail polish remover, or anything containing acetone,
- NEVER use any product that contains bleach or a bleach alternative because it may cause discoloration,
- NEVER use carpet cleaning machines or attachments, because it may cause the fabric to shrink or wrinkle,
- NEVER dry with hair dryer set on maximum hot position,
- NEVER use fabric softeners.

REACH Compliance Certificate

The EU REACH Regulation (Registration, Evaluation and Authorization of Chemical Substances - EC1907/2006) REACH is a regulation of the European Union, adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals, while enhancing the competitiveness of the EU chemicals industry. It also promotes alternative methods for the hazard assessment of substances in order to reduce the number of tests on animals.
